VICA invites the input of its members as it takes positions on a variety of legislative issues. Issues are assigned to VICA's policy committees depending on the nature of the issue. Each committee meets regularly to review and then to analyze current issues impacting the region's business climate and/or VICA's member companies.

Committees are encouraged to make recommendations to VICA's Board of Directors for positions to be formally adopted. Those positions are then presented to the appropriate audience through VICA's advocacy and communications functions. In order to be eligible to cast votes at VICA's committee meetings, you must be a member in good standing.
