Who would you like to see buy the Los Angeles Dodgers and why do you want that individual/entity to be the new owner?

I vote for Nordstrom as the new owner. If nothing else, the team will look fashionable.

I think Mark Cuban would be an interesting owner. He is passionate about his team and wants to see them win. I like how he travels with the Mavericks and is not afraid to speak his mind in support of his team.

I would like the buyer to be an individual who is a U.S. Citizen and resident or a group of individuals who are U.S. Citizens and residents with adequate funding (for the acquisition, future operations and security measures) and staying power, who will leave the team in Los Angeles, not drain the teams assets for personal use and not gouge the fans.

I would like Fred Gaines to buy the Dodgers. Why? Because he loves the team, he knows baseball (having played for Grant HS) and, he could unilaterally make me the Bat Boy!
